

## **EMPLOYMENT IN DENMARK**

There are opportunities within international companies and also some Danish ones if you don't speak Danish. Generally you can get a hospitality or retail job without a lot of Danish but there is a lot of competition for these jobs.

You can work here as an EU citizen if you are job seeking you can live here for six months without registering for a CPR number. As soon as you get a job contract you can register.

If you are living in Copenhagen Kommune and you are registered with a CPR number International House offers a lot of free courses. They can also offer you advice from the offices there too. More information on **their website**.

LinkedIn is very big here so ensure your pages are up to date. CVs in general would follow the same international format but there may be subtle differences such as the inclusion of a picture of yourself, but generally a well-written and targeted CV is a good starting point.

For local authority jobs in childcare etc **this website** is the place to look, although there is an expectation of some Danish in the jobs so a possibility once you have some language skills.

To get help and the inside track on job searching etc in Copenhagen, there are a number of organisations based in International House, which you can access for free if you live in Copenhagen Kommune.

These links explain a little more about what they have to offer.
