The library system in Copenhagen has a **central website** where you can search for specific titles and either reserve them (if they are out on loan) or order them to be delivered to your closest library (if you have a CPR number). You can also return them there. The main library at Krystalgade 15 has a large English language section if you want to browse including a number of books for children and young adults.

KINDLE BOOKS

If you are looking for Kindle books then you may not be able to buy them from the UK Amazon store but you can from the German one.
