

Paddling Pools in Copenhagen

Once the real summer months are here in Copenhagen, the Kommune run paddling pools (or soppebassin or soppesøer) will be filled on hot days. [Here is the main link to all the locations.](#)

Here is a rundown of some of the best in the city.

- **Skydebanehaven** - this large paddling pool in this fantastic playground in Vesterbro is filled by spring water. {Free}
- **Bermuda Triangle in Nørrebroparken** - again a large paddling pool in an interesting playground. It is close to the trendy Stefansgade and Jægersborggade in Nørrebro. {Free}
- **Soppesøen in Fælledparken** - this is probably the best one in the city with a water maze and water cannons that shoot for 5 metres. This one is not supervised {Free}

All four of these may be filled from the 1 June. Check on this [Facebook page](#) to see which ones are open on any given day.

- [Lindevangsparken](#) in Frederiksberg has quite a deep paddling pool but it is only filled during the school holidays.
-

There are also some outdoor swimming pools offering play sections in the summer months

[Bellahøj Open Air Swimming Pool and Bavnehøj Open Air Swimming Pools](#) both have a play sections with water slides and a grassy area to sit in the sun. {Paid}

RULES OF USE

There are, of course, some rules for using these pools:

- Paddling pool is only to paddle in
- Take drinking water from the nearest tap
- Children should wear swimwear or swim nappies
- Keep dogs out of the water.
